Chapter I

HOME PROGRAM BASICS

i. INTRODUCTION

The HOME Program was created under Title II (the HOME Investment Partnerships Act) of the National Affordable Housing Act of 1990, and has been amended several times by subsequent legislation. The objectives and intent of the HOME Program are: provide decent affordable housing to lower-income households; strengthen the ability of state and local governments to provide housing; expand the capacity of non-profit housing providers; and leverage private sector participation. In addition, Congress intended the HOME program to operate in ways that will help the participating jurisdiction (PJ) undertake its own affordable housing strategy.

HOME funds are allocated by formula to PJs. The formula is based in part on factors including population, age of units, substandard occupied units, and the number of families below the poverty line. The State of California Department of Housing and Community Development is the PJ for all jurisdictions of the State that do not directly receive a HOME allocation from HUD and are not participants in an urban county agreement with a county that receives direct HOME funding nor a member of a consortium that receives direct HOME funding. Cities and counties (State Recipients) that do not qualify for a direct allocation participate in the HOME Program by applying for funds made available by the State. In addition, the State must reserve a minimum of 15 percent of its annual allocation for activities undertaken by qualified and State-certified Community Housing Development Organizations (CHDOs).

Funds Distributed through Notice of Funding Availability

The Department adopted regulations (Section 8200 et seq. of Title 25), which establish procedures for the award and disbursement of HOME funds and establish policies and procedures for the use of these funds. The Department issues an annual Notice of Funding Availability (NOFA) announcing the availability of federal funds received for the HOME Program.

The NOFA invites eligible applicants to submit an application, provides certain information about the HOME Program and establishes criteria and requirements that applicants must meet. The Department evaluates and rates applications by criteria established in both the NOFA and regulations. Applications are placed in one of two competing groups (programs and projects) and then funded in descending order. Applications that qualify for the CHDO set-aside are funded first based on their scores. Once the set-aside has been achieved, all remaining applications are funded based on their scores relative to all other applications with the highest scoring application funded first.

State Standard Agreement Requirements

Successful applicants receive a letter from the Department that constitutes a conditional reservation of funds. After that, successful applicants should receive a letter and five (5) copies of the State Standard Agreement. Please execute all five copies, in accordance with the instructions on the transmittal letter. The person executing the State Standard Agreement must be authorized by the governing body's resolution to execute said Agreement. Please note that the State Standard Agreement must be executed and returned to the Department within 45 days or the conditional reservation of funds will be cancelled.

Once fully executed, the State Standard Agreement represents a mutually agreed to, legally binding contract between the Department and the State Recipient or the CHDO. State Recipients and CHDOs are referred to as "HOME contractors." The Standard Agreement does not create an absolute obligation by the Department to the HOME contractor.

IMPORTANT: READ YOUR STANDARD AGREEMENT

Please note that the State Standard Agreement describes the scope of work and establishes completion and other important dates, the contract amount, and match and leveraging requirements.

All work activities eligible for reimbursement under this Agreement must comply with the Standard Agreement and the original HOME Application under which the program or project was funded. You are not permitted to change the activity for which you were funded, nor can you move funding from one funded activity to another without prior Department approval.

The HOME contractor must meet all the specific pre-disbursement conditions, set-up conditions, and other appropriate special conditions and requirements stated in the Standard Agreement within specific time periods in order for the Department to disburse any funds. The obligations to meet these conditions are in effect from the moment the Agreement has been fully executed by both parties. If these terms and conditions are not met, the Department may withhold the funds and may even terminate the Agreement. Most changes require a formal contract amendment, which must be executed before the change may occur.

Maintaining Standard Agreement Program Files

Every person responsible for either administering the State Standard Agreement for your agency or implementing the HOME-funded activity should review the Standard Agreement in its entirety. If the original Standard Agreement is kept in another part of your organization, and you are playing a key role in implementing the funded activity, make yourself a copy for easy reference and availability.

The Department may ask for clarification or changes in your application before completing the processing of the State Standard Agreement. For example, an applicant may be requested to obtain another resolution from the governing body addressing all of the concerns of the Department, a CHDO may be asked to more fully describe its role to demonstrate compliance with the HOME requirements concerning CHDO eligibility, or a State Recipient may be requested to modify its program guidelines to comply with HOME regulations or requirements.

ORGANIZATION OF STANDARD AGREEMENT

The Standard Agreement is organized as follows:

- The first page of the Agreement specifies the contractor, the contract number, the total contract amount and the effective date of the Agreement. This date is found in the lower right hand corner of this page;
- The body of the Agreement contains requirements, terms, and conditions, cites various federal and State laws and regulations that the contractor must comply with while performing the "Work" of the Agreement, and incorporates the contractor's HOME Application by reference to the Agreement;
- Attachment A describes the "Work" to be performed; the amount of HOME funds allocated to performing the "Work," including administrative amounts; completion dates and expenditure milestones; and stipulates leverage and match contributions;
- Attachment B establishes the requirements and pre-disbursement conditions for project set-up and disbursement of funds. Pre-disbursement conditions must be met to the Department's satisfaction prior to the Department disbursing any funds under this Agreement;
- Attachment C identifies additional special conditions particular to the activity or project that are required by the Department;
- Attachment D identifies additional State laws and regulations that the Contractor must comply with, in addition to the federal and State laws and regulations identified in the body of the Agreement.

HOME Contractor Is Responsible

Although the HOME contractor may enter into a subcontract with a third party (administrative subcontractor) to perform the "Work" of the Agreement, in whole or in part, the HOME contractor is responsible to ensure that all of the "Work" meets and conforms to all of the terms, requirements, conditions, and special conditions established in the Standard Agreement.

IMPORTANT: If you are a State Recipient or CHDO and are contracting with a third party for certain administrative services, the State Recipient or CHDO, which has entered into the State Standard Agreement with the Department, is ultimately responsible for ensuring compliance with all applicable State and federal laws, rules, regulations, contractual conditions, and requirements of the HOME Program.

When the Department monitors or audits a Standard Agreement, the State Recipient or CHDO that has entered into that Agreement with the Department will be held accountable for demonstrating that all the HOME funds were expended correctly and that all the records are maintained and held by that entity.

Administrative Subcontractor Requirements

A State Recipient or CHDO that plans to disburse funds to another entity must first execute a written agreement between itself and the recipient. A properly written and executed agreement is a valuable management tool for verifying compliance, monitoring performance, enforcing program requirements, and protecting the HOME investment. The written agreement should be a concise statement of the relationship between the contracting parties, describing the use of the HOME funds and the conditions under which the HOME funds are provided.

Specific contents of agreements will vary, depending upon the role of the particular subcontractor and the type of activities undertaken. At a minimum, however, written agreements must include or identify:

- 1) Identifying the roles and responsibilities of each party;
- 2) A full description of the project or program being funded, spelling out the eligible use of funds:
- 3) Allowable uses of funds, including tasks to be performed, a schedule for completing tasks and a budget in sufficient detail to effectively monitor performance;
- Whether program income, unexpended funds, or other assets are retained by a State Recipient, how they will be recorded, an identification of the local HOME account for holding these assets, and how and under what circumstances and conditions they can be expended (they must be expended on HOME-eligible activities prior to drawing down any new funds);
- 5) A requirement that the subcontractor will comply with applicable federal administrative requirements including OMB Circular A-87 and applicable provisions of 24 CFR Part 85 for governmental entities, or OMB Circular A 1-122 and applicable provisions of 24 CFR Part 84 for non-profit entities);

- 6) Other requirements that must be met, including nondiscrimination and equal opportunity; affirmative marketing and minority outreach; environmental review; displacement, relocation and acquisition; labor standards; and lead-based paint;
- A requirement that HOME funds cannot be requested until funds are needed for repayment of eligible costs. The amount of each request must be limited to the amount needed, and funds requested may not be retained longer than 15 days from disbursement from the U.S. Treasury;
- 8) A requirement that certain records must be maintained and an identification of where they will be maintained, and a requirement that certain information and reports must be submitted and their due dates;
- 9) A means for enforcing the provisions of the written agreement between all parties;
- 10) A description of all requirements applicable to the type of program or project(s) funded (such as affordability requirements, property standards, rents, homeowner or renter eligibility requirements, and recapture or resale provisions);
- An identification of all fees, costs or charges an administrative subcontractor receives or may receive as compensation for loan origination, loan processing or loan servicing, including any pass through of loan processing costs;
- 12) A description of the project or program close-out requirements;
- 13) A project timetable with performance standards;
- 14) A warning of the consequences of non-performance;
- 15) Criteria for the successful completion of the program or project;
- 16) CHDO recordkeeping, as applicable;
- 17) A certification regarding lobbying, as contained in the Standard Agreement.

IMPORTANT: If either the contractor or administrative subcontractor violates or does not meet any of the terms, requirements, conditions, or special conditions of the Standard Agreement, the Department has the right to suspend, modify, or terminate the disbursement of funds under this Agreement and has the right to recapture any disbursed funds.

A. PROJECT COSTS & ADMINISTRATIVE COSTS

It is crucial for HOME contractors to differentiate accurately between project costs and administrative costs, so they can be reimbursed for eligible expenses.

Applicable to both CHDOs and State Recipients

Project Activity Costs include new construction, rehabilitation, on-site improvements, and acquisition. HOME funds may be used for any of the eligible activities described in 24 CFR Section 92.205, and may only be used for those activities described in your Standard Agreement (Std 2.) and its attachments.

Applicable only to CHDOs-CHDOs Have All-Inclusive Administrative Funds

CHDOs may expend up to 8.5% of their award for CHDO Operating Expenses. Activity Delivery Costs are included in the 8.5%. A CHDO may not receive Operating Expenses from the HOME Program for any fiscal year in an amount that provides more than 50 percent or \$50,000, whichever is greater, of the CHDO's total operating expenses in that fiscal year. [24 CFR Section 92.300(f)].

Applicable only to State Recipients

Administrative Costs are expenditures made to satisfy conditions of the Standard Agreement and carry out general administration functions. For example, the costs of modifying your rehabilitation guidelines to accommodate HOME Program requirements, completing an environmental review, and salaries for personnel who administer the HOME Program are allowable Administrative Costs. Administrative Costs may also include the following:

- General management, oversight, and coordination
- Public information
- Fair housing
- Indirect costs
- Compliance with other federal requirements

Administrative Costs may be incurred beginning on the date the Standard Agreement was executed by the State (the date at the lower right hand corner of the first page of the Agreement), but may not be drawn down until costs have actually been incurred. See 24 CFR Section 92.207 for a listing of HOME Program eligible administrative costs. For contractors who received January 17, 2003 award letters only, administrative expenses for NEPA compliance work incurred after the Conditional Award Letter date are eligible to be reimbursed by HOME funds.

The amounts for Administrative Costs and Activity Delivery Costs are specified in Attachment A of each Standard Agreement. State Recipients may request advance State approval to move HOME Administrative funds between activities.

What Are Activity Delivery Costs?

Activity Delivery Costs can be used for staff and overhead costs incurred by the State Recipient or administrative subcontractor that are directly related to carrying out specific HOME Projects. Activity Delivery Costs include the following:

- Affirmative marketing to prospective tenants or owners of a HOME-assisted project
- Preparation of work write-ups, work specifications, and cost estimates
- Project document preparation
- Project underwriting
- Construction inspections and oversight
- Inspections for the presence of lead hazards or defective paint
- Project-specific environmental reviews
- Homebuyer and tenant counseling (if they are HOME-assisted)
- Costs associated with informing tenants or homeowners about relocation rights or benefits.

Starting with the 2000 awards, HOME State Recipients have three different allocated amounts reflected in their Standard Agreement: 1) Project Activity; 2) Activity Delivery Cost for each approved activity; and 3) Administrative Cost. CHDOs have only two different allocated amounts reflected in their Standard Agreement: 1) Project Activity, and 2) CHDO Administrative Funds. Your Standard Agreement (Std. 2) lists the specific amounts for each of these types of expenses. State Recipients need to make certain that they charge the appropriate expenses to each category.

How Activity Delivery Costs Differ from Administrative Costs

The 2.5% Administrative Costs can be drawn at any point in the project/program, do not trigger match and are not included in subsidy limit calculations. Administrative Costs must be supported with appropriate documentation of expenses.

Activity Delivery Costs must be set up and drawn at the same time that Activity funds are set up and drawn. Activity Delivery Costs are included in the maximum per-unit subsidy limit calculation of the project and trigger HOME Match. They must also be supported with appropriate documentation of expenses. However, Activity Delivery Costs will not be secured or evidenced by a note and deed of trust and do not have to be repaid as do Project Activity funds not listed above.

Restrictions on Activity Delivery Costs (ADCs)

- ADCs cannot be used for Tenant-Based Rental Assistance activities;
- If ADCs are spent on a project and the project is not completed (i.e., a Project Completion Report cannot be filed), the ADCs will have to be repaid by the SR.
- ADCs are limited to a proportional amount of project funds drawn. That is, if you
 request 10% of your Project Activity Costs, you will only be allowed to request 10% of
 you ADC's.
- Activity Delivery Costs are capped at a maximum of 6% of activity dollars for all project activities except for the Homeowner Rehabilitation and Acquisition and Rehabilitation activities, which are capped at a maximum of 12%.
- The State Recipient or any third or fourth party contractor may not charge any type of fee
 for loan origination, loan servicing, project monitoring, compliance reviews or any other
 type of activity.
- Once the amount of HOME assistance, not including ADC, has been determined for a specific project, you can calculate the amount of ADC as 13.64% of the HOME assistance amount for Homeowner Rehabilitation and Homeowner Acquisition with Rehabilitation activities; 6.38% for all other activities other than Tenant Based Rental Assistance. The overall limit stated in the Agreement still applies.

B. HOME PROGRAM AFFORDABILITY REQUIREMENTS

Funding from the HOME Program, like all federal funds, comes with many strings attached. HOME-assisted housing is held to sales price/value limits and subsidy limits that restrict the amount of HOME funds that can be used for the housing. In addition, housing assisted with HOME funds is required to be affordable to those making 80 percent or less of area median income, through restrictions on the incomes of eligible households and restrictions on rents (low HOME rents and high HOME rents), as well as restrictions on occupancy, including requirements for deeper targeting in rental housing projects. State Recipients and CHDOs are responsible for making sure that these requirements are met.

Determining Income Eligibility for Households Assisted by HOME

HOME regulations require that, for the purpose of determining eligibility for HOME assistance, State Recipients and CHDOs must project a household's income as defined in Title 24 – 92 Section 5.609. To determine whether a household is eligible, their income is determined using the 24 CFR -Part 5 definition, the "Section 8" methodology.

Annual income includes the gross amount of income of all adult household members anticipated to be received during the coming 12 months. The current employment situation of the family should be used to determine the <u>anticipated</u> annual income. When determining the household size, the following are not counted as household members: foster children, live-in aides, unborn children and children being pursued for legal custody or adoption who are not currently living in the household. Once the annual household income has been established, it must be compared to the most recent HUD area income limits available on the HCD website at http://www.hcd.ca.gov./hpd/hrc/rep/state/incNote.html.

What income should be counted?

Appendix I-B-1 contains a sample form for calculating annual income. The following types of income should be included:

- 1. All income of all adults, including wages, overtime, commissions, fees, tips, bonuses, and other compensation for services before any payroll deductions
- 2. Child Support, AFDC payments, and other benefit payments on behalf of a minor
- 3. Income of temporarily absent family members
- 4. The first \$480 in earnings of a full-time student who is at least 18 years old. However, the \$480 limit does not apply if the student is the head of household or the spouse. In those cases, the student's full income is counted.
- 5. Net income from the operation of a business or profession
- 6. Interest, dividends, and other income of any kind from real or personal property

- 7. Any withdrawals of cash or assets from Investments.
- 8. Full amount of payments received from Social Security, annuities, insurance policies, retirement funds, pensions, and disability or death benefits
- 9. Unemployment, worker's compensation, disability compensation, and severance pay
- 10. Alimony payments and regular contributions or gifts received from organizations or from persons not residing in the home

What income is excluded?

- 1. Income from employment of children under the age of 18;
- 2. Payments received for foster care;
- 3. Lump sums received as inheritances, insurance payments, capital gains and settlement for personal or property losses, including reimbursement of medical expenses;
- 4. Income from live-in aide, as defined in Section 5.403;
- 5. Student financial assistance paid directly to the student or educational institution;
- 6. Special pay to a family member serving in the Armed Forces who is exposed to hostile fire:
- 7. Amounts received under training programs funded by HUD and other employment training;
- 8. Earnings in excess of the \$480 for a full-time student who is at least 18 years old;
- 9. Adoption assistance payment in excess of \$480 per child;
- 10. Deferred periodic payments from SSI and Social Security benefits;
- 11. Refunds or rebates for property taxes and earned income tax credit;
- 12. Amounts received from a state agency for a member of the family with a disability who is living at home to offset the cost of services;
- 13. Payments received for various Federal Acts, such as Alaskan Native Claims Settlement Act, Grand River Band of Ottawa Indians, etc.

There are no asset limitations for the HOME Program. In cases where the net assets are below \$5,000, use the actual income generated from the assets. If net assets are in excess of \$5,000, use the higher of income generated by those assets or use the current passbook savings rate, which is currently 2%.

How To Verify Income

The two procedures for verifying income are as follows:

- 1. **Third-Party Verification**. Through this method, the contractor contacts outside sources in writing to provide information. Before you can obtain the information from the third-party entity you must have a written release from the household. The forms for these requests are listed below:
 - Verification of Employment;
 - Verification of Social Security;
 - Verification of Pension and Annuities;
 - Verification of Veterans Benefits;
 - Verification of Unemployment Benefits;
 - Verification of Public Assistance:

Obtaining information by phone from the listed employer or public assistance agency does not meet the adequate source documentation requirement for the HOME program.

- 2. **Review documentation provided by the applicants**, including the following:
 - Current 30-day consecutive pay stubs;
 - Last three years of Federal tax returns;
 - Last two years of W2s;
 - Last two months of bank statements;
 - If self employed, last two years of Schedule C of their Federal tax returns and a current profit and loss statement;
 - Divorce documents showing child support and alimony received;
 - Benefits statements (pension, Social Security, etc.)

It is important, when assessing the information, to note whether the employee is paid hourly, weekly, or monthly, and note average overtime pay. If an employee gets paid twice a month, that is 24 times per year, whereas if an employee is paid every two weeks, that is 26 times per year. It is also important to determine if overtime is continuous or sporadic.

Contractors should refer to the "Technical Guide for Determining Income and Allowances for the HOME Program for determining and verifying income. Use the sample forms located in Appendices I-B-1 and I-B-2 as references.

Purchase Price & Value Limits for HOME-Assisted Housing

Acquisition of single-family dwellings and rehabilitation of owner-occupied single-family dwellings are governed by the Section 203(b) Single-family Home Purchase Price Value Limits, included as Appendix I-B-2. These limit the sales price or value of a home assisted by the HOME Program. For example, if the limit for your county is \$170,000, homebuyers assisted by your program cannot purchase a house costing more than \$170,000. In addition, the after rehabilitation appraised value of all owner-occupied houses which are rehabbed under your program cannot be higher than \$170,000. HOME contractors can request an increase in their purchase price/value limits by providing documentation (such as comparables and/or a market study) that actual sales are greatly in excess of the published limit. See the HOME Final Rule at 24 CFR 92.254 (a) (2) (iii) and contact your HOME representative for more information on this.

HOME Rent Limits

All HOME-assisted rental housing is subject to rent limits designed to ensure their affordability to lower-income households. These maximum rents are issued by HUD and are referred to as HOME rents. They are generally based on Section 8 Fair Market Rents, and are usually adjusted annually (see Appendix I-B-3 for the 2003 HOME rents).

There are two HOME rents established for rental projects: High HOME rents and Low HOME rents. For all rental housing, 90 percent of the units must be occupied by households making 60 percent or less of area median income during the initial year of occupancy. These households can be charged no more than the High HOME rent. In rental projects with five or more HOME units, 20 percent of the HOME-assisted rental units have to be occupied by households making no more than 50 percent of area median income and shall be charged no more than the Low HOME rent during the entire HOME period of affordability.

The following table illustrates these requirements. This example assumes that the project has 10 units, and all 10 units are HOME-assisted.

Unit Number	Maximum Rent	Household Income Limit
1	High HOME Rent	80% of Area Median Income (AMI)
2	High HOME Rent	60% of AMI
3	High HOME Rent	60% of AMI
4	High HOME Rent	60% of AMI
5	High HOME Rent	60% of AMI
6	High HOME Rent	60% of AMI
7	High HOME Rent	60% of AMI
8	High HOME Rent	60% of AMI
9	Low HOME Rent	50% of AMI
10	Low HOME Rent	50% of AMI

Required Period of Affordability

Rental and first-time homebuyer units assisted with HOME funds are required to remain affordable for a designated length of time. The affordability period is dictated by the amount of HOME funds committed to each HOME-assisted unit and the type of housing activity funded. Federal Final Rule Section 92.252(e) addresses the period of affordability for rental units and Section 92.254(a)(4) addresses the period of affordability for homeownership. However, the Department requires a 30-year affordability period for CHDO rental projects assisted with HOME funds, and recommends that State Recipients also require this term. HOME Projects funded for more than \$1 million under the 2002 HOME NOFA are required to have a 55 year period of affordability.

NOTE: These are <u>minimum</u> affordability periods.

C. CALCULATING THE AMOUNT OF HOME ASSISTANCE

The minimum amount of HOME funds is \$1,000 per HOME-assisted unit. Tenant-based rental assistance is exempt from this minimum limit. HUD establishes and annually updates maximum HOME subsidy limits, called the Section 221(d)(3) limits, for HOME projects. Adjusted by county and the number of bedrooms, the 221(d)(3) limits (included in Appendix I-C-1) represent the maximum amount that a HOME project may receive. To calculate the 221(d)(3) limit for a single-family unit, locate the applicable limit based on the number of bedrooms and county location. To calculate the 221 (d)(3) limit for a rental project:

- 1. Identify the HOME units by bedroom size.
- 2. Multiply the number of HOME units by bedroom size with the applicable subsidy limit for the county.

Example:

	(A) 221(d)(3) Maximum Subsidy Per Unit	(B) Number of HOME Assisted Units	(C) Total Maximum Subsidy (AxB)
SRO			
1 Bdrm	80,000	3	240,000
2 Bdrm	100,000	4	400,000
3 Bdrm	110,000	3	330,000
4 Bdrm			
Maximum HOME Investment			970,000

HOME can only pay the actual costs of the HOME-assisted housing. If the units are comparable in size, features, and number of bedrooms, then the actual costs of the HOME units can be determined by pro-rating the cost of the HOME units with the total development cost. You should complete this exercise and compare the result with the calculated 221(d)(3) limit.

Example:

_	(A) Number of HOME Assisted Units	(B) Per/unit HOME Square Feet	(C) Total HOME Square Feet (AxB)
SRO			
1 Bdrm	3	700	2100
2 Bdrm	4	1000	4000
3 Bdrm	3	1200	3600
4 Bdrm			
TOTAL	10	2900	9,700

Total Residential Square Feet: 19,400

HOME Sq. Ft. Cost Multiplier: 9,700 / 19,400 = 50%

(HOME residential square feet/total residential square feet)

Total HOME Development Cost: 50% x \$4,000,000 = \$2,000,000

(HOME Sq. Ft. cost multiplier x TDC)

The maximum HOME subsidy limit is the lower of either:

221(d)(3) limit or Total HOME Development Cost

\$970,000 \$2,000,000

In this example, the 221(d)(3) limit of \$970,000 applies and represents the maximum amount of HOME assistance.

Subsidy Layering Analysis

The HOME Program conducts a subsidy layering analysis of all CHDO projects prior to releasing any funds to ensure that the amount of HOME funds is not more than the amount necessary to provide affordable housing. Likewise, State Recipients are required to conduct a subsidy layering analysis before they commit HOME funds to a project. Appendix I-C-2 includes the required subsidy layering form to be used by State Recipients. The Department will review the subsidy layering analyses conducted by State Recipients for projects they fund, and may reduce the amount of the subsidy based on its evaluation. The HOME funds are required to represent the gap financing in the project. For example, the State Recipient or CHDO should not have a one-size-fits-all loan amount for all of its homebuyers, no matter what their household income and purchase price of the house is.

For first-time homebuyer projects, the HOME contractor must ensure that the HOME loan is only the amount necessary based upon an analysis of each borrower's household income, all other financing, home sales price, and compliance with any loan to value ratio limit(s) adopted by the HOME contractor. For owner-occupied rehabilitation projects, the HOME contractor should also analyze the homeowner's income if the HOME loan requires repayment, and verify that the rehabilitation work is complete, reflects reasonable costs, and meets the applicable local, state, or national building codes.

For rental projects, the HOME contractor should evaluate the aggregate amount of financing (HOME and non-HOME) necessary to ensure the feasibility of the assisted project, long-term needs of the project and its targeted tenant population, reasonable development costs, and reasonable cash flow.

To properly conduct a subsidy layering analysis for a rental project, the HOME contractor should obtain and analyze at least the following information.

Sources of funds

- 1. Commitment letters with all terms and conditions for all mortgages, grants, subordination agreements, bridge loans, tax credits, investor contributions; and
- 2. If a partnership, the partnership agreement and equity letters indicating the general and limited partner contributions.

Uses of funds

- 1. Earnest money agreement, option, or closing statement for land and/or building(s);
- 2. Construction cost estimate;
- 3. Construction contract or bids:
- 4. Regulatory or loan agreements governing project operations and reserves;
- 5. Appraisal substantiating the value of the land and property after rehabilitation or construction:
- 6. Rent schedule:
- 7. Operating budget;
- 8. Multi-year pro forma for the period of HOME affordability;
- 9. Construction and permanent sources and uses (for tax credit projects, the sources and uses should show the proceeds from the sale of credits as a funding source and the syndication costs like legal, accounting, tax opinions, etc);
- 10. Preliminary title report; and
- 11. Market analysis showing the comparables for the project rents, vacancy rates, and operating expenses to other subsidized and market rate rental projects; and
- 12. Additional documentation required by Attachment B of the HOME Standard Agreement.

With this information, the HOME contractor should ask several questions regarding:

Income

- □ Do the HOME rents comply with the HOME rent requirements?
- ☐ Is the project rule met? That is, will 20% of the HOME assisted units be occupied by families whose income is very low?
- □ Is the vacancy rate realistic?
- ☐ Are there any unknown sources of revenue?

Operating Budget

- □ Is the total operating cost realistic?
- □ Do property taxes need to be paid?
- □ Are there any unclear or unusual expenses?
- □ Are replacement reserve and operating reserves calculated according to HOME guidelines?

Multi-year Pro Forma

- □ Is the pro forma for the affordability period?
- □ What are the trending assumptions for income and expenses? Is the operating reserve trended?
- □ Does the debt coverage ratio comply with the HOME requirements?
- □ Is there positive cash flow throughout the period of affordability?
- □ Is the operating budget consistent with the multi-year pro forma?

Development Budget

- □ Is the construction cost reasonable for comparable project types and the same area?
- □ What is the % of overhead/profit/general requirements of the total construction cost?
- □ What is the % of architectural/engineering services of the total construction costs?
- □ What is the % of contingency of the total construction cost?
- □ What is the % of the developer's fee of the total development cost (less land)?
- □ Are there ineligible HOME costs?
- □ Is relocation, lead-based paint, or asbestos mitigation budgeted?
- □ Are there enough construction and permanent sources to pay development costs?
- □ Are the permanent loans for at least the term of affordability?

Underwriting Guidelines

The following guidelines are ranges for various factors. If the HOME contractor deviates from these guidelines, the Department will request additional information or explanation from the contractor. Where appropriate, mandatory requirements are also listed:

Factor	Guideline or Requirement (in bold)	
Vacancy Rate	5%	
Total Operating Cost Per Unit Per Month	\$200-\$300	
Management Fee Per Unit Per Month	\$25-\$40, or 5-7% of gross rental income	
Replacement Reserve	0.6% of unit construction cost	
Operating Reserve	3% of operating expenses	
Multi-Family Pro-Forma Trending	3% for income; 4% for expenses	
Assumptions		
Debt Coverage Ratio	No more than 1.15 (mandatory)	
General Contractor	10-14% of construction costs	
Overhead/Profit/General Requirements		
Architect and Engineering	3-7% of construction costs	
Contingency	5-10% of construction costs	
Developer's Fee	7-10% of Total Development Costs excluding	
	land	

If the subsidy layering analysis indicates there is excess subsidy to a project, the Department may do any or all of the following:

- ➤ Reduce the amount of the HOME allocation;
- > Require additional financing;
- Require reduced rents; or
- > Require additional affordable units.

Also, the contractor should document to the Department the amount of governmental assistance, anticipated governmental assistance, and how the following key evaluation points are addressed in the HOME project:

Key Evaluation Points for HOME Projects:

- ➤ Total proposed funding (public and private) does not exceed the total activity costs for the project or program
- Proposed activity costs are customary and reasonable according to industry standards
- Projected rates of return are reasonable and applicants are not receiving excess profit or windfalls

D. PROJECT SET-UP

Project Set-up Requirements

Project set-up is the process of reserving funds for individual projects that will be assisted with HOME Program funds. Prior to setting up projects and requesting funds, the following must be done:

- 1) The Standard Agreement (Std.2) must be executed by the HOME contractor and the State of California;
- 2) All activities that have conditional approval listed in the Standard Agreement must be cleared and evidence of the clearance must be received and approved by the Department. (Refer to the executed Standard Agreement and its attachments.)

How To Set Up a Contract

1. To set up the contract (and, subsequently, projects) in the Federal Integrated Disbursement and Information System (IDIS), the Department must have the contractor's Federal Tax ID Number. To make payments to the contractor, the Department must have a completed Std. 204 Vendor Data Record (Appendix I-D-2). To satisfy both of these requirements, submit a completed Std. 204 to the Department prior to requesting set up of any projects.

Contractors who have previously done business with the Department and who do not wish to change the address to which their HOME warrants are being mailed, do not need to submit a Std. 204. In this case, you only need to submit a new Std. 204 if you wish to change the address to which your HOME warrants will be mailed.

- 2. To set up projects, submit to the Department the following information:
 - a. A completed HOME-required Project Set-Up Report: HOME-7 (Homeownership Assistance/Rental Housing Project Set-Up) or HOME-8 (Tenant-Based Rental Assistance Project Set Up). For copies of these forms, see Appendix I-D-3 and Appendix I-D-4. A listing of funding source codes is at Appendix I-D-5, Project Funding Source Detail Listing (HOME-3).
 - b. You may submit a draw request along with your Project Set-Up Report. Draw requests will be discussed in the next section.
 - c. After the project is set up by the Department, a copy of the Project Set-Up Sheet indicating when your project was set up will be mailed to you. Please review this sheet to ensure the project was set up correctly.

- 3. If you need to increase or decrease the amount of HOME or other funding sources for a project, you must revise the project set-up. If your project is complete you may be able to make revisions and submit them on a Project Completion Report. (See Section H. Project Completion for details.) To revise previously set up projects, submit to the Department:
 - a. A completed HOME-required Project Set-Up Report (HOME-7 or HOME-8). Check the box on this form indicating that it is a revision.
 - b. A listing of funding source codes is at Appendix I-D-5, Project Funding Source Detail Listing (HOME-3).
 - c. After the Department revises the project set-up, a copy of the Revised Project Set-Up Sheet indicating when your project set-up was revised will be mailed to you. Please review this sheet to ensure the project was revised correctly.

E. How to Draw Down HOME Funds

HOME funds can only be requested for previously set up projects.

Administrative Fund Disbursement Requirements

To request administrative funds and report on other funds being expended for administrative costs, submit a completed Department-required Administrative Drawdown Request Form (HOME-4, included as Appendix I-E-2). Use the correct two-digit funding source code as shown on the back of the HOME-4 Administrative Costs, which is "06 - HOME Administrative Funds."

- 1) State Recipients should make certain that Activity Delivery Costs/Project Related Soft Costs are not charged to Administrative Costs (explained in an earlier section). Requests for Activity Delivery Cost reimbursement must include the Project Drawdown Request Form (HOME-5). State Recipient Administrative Costs are a maximum of 2.5%.
- 2) CHDOs may expend up to 8.5% of their award for CHDO administration. This includes Activity Delivery Costs.

Activity Delivery Costs

State Recipients' Activity Delivery Costs are capped at 6% for all project activities except for the Homeowner Rehabilitation and Acquisition and Rehabilitation activities, which is capped at 12%. Activity Delivery Costs should be requested proportionally to project costs. For example, if 30 percent of the project costs that were set up are being requested, then no more than 30 percent of the Activity Delivery Costs for that project may be requested.

To request Activity Delivery Costs, submit a completed Department-required Project Drawdown Request form (HOME-5). Use the correct two-digit funding source code as shown on the Project Funding Source Detail Listing (HOME-3) at Appendix I-D-5,

11 – HOME Funds - Activity Delivery Costs

Project Activity Costs Disbursement

Project Activity Costs include new construction, rehabilitation, on-site improvements, and acquisition. HOME funds may be used for any of the eligible activities described in 24 CFR Section 92.205, but may only be used for those activities described in your Standard Agreement (Std 2.) and its attachments.

To request project funds and report on other funds being expended for project costs, submit a completed Department-required Project Drawdown Request Form (HOME-5, included as Appendix I-E-3).

For the final draw, also ensure that the HOME-5 reflects any changes to the funding sources and/or amounts that have changed since the project was set up. A listing of funding source codes is at Appendix I-D-5, Project Funding Source Detail Listing (HOME-3).

HOME Program funds requested on all HOME-4 Forms and HOME-5 Forms must be rounded to whole dollar increments (no cents), and normally should not be submitted for less than \$100.00 unless the funds remaining are less than \$100.00.

Important! Signature Authority Is Needed!

HOME draws cannot be processed unless the Department has received a resolution or a letter from the contractor designating a specific title and/or person to sign their submitted HOME draws. The resolution or letter must meet the following requirements:

- 1) The letter should be an original;
- 2) The person(s) signing either the Administrative Drawdown (ADR) or Project Drawdown (PDR) Forms must be specifically authorized to sign those types of documents on behalf of the HOME contractor;
- 3) Proof of such authorization must be submitted to the Department prior to or concurrently with the HOME contractor's initial ADR or PDR;
- We encourage contractors to designate an authorized signer by title rather than by name and title. This way if a specific person leaves a job and another person is in that position, they are able to sign for draws without submitting another signature authority letter. However, some contractors wish to maintain tighter controls and may submit a signature authority letter with both a name and a title.

State warrants will be made payable to the HOME contractor (State Recipient/ CHDO).

Other Disbursement Requirements

• **Designated Payee**: The HOME contractor may request that a warrant or all warrants be made payable to a "designated payee." The HOME contractor must submit evidence of this authorization by letter, on the HOME contractor's letterhead, which contains the original signature of the HOME contractor's authorized signatory. If the designated payee is not a unit of general local government, a Vendor Data Record form (Std. 204) (Appendix I-D-2 must to filed with the Department prior to the issuance of any warrants to that particular designated payee. More than one designated payee authorization may be on file with the Department at the same time for the same Standard Agreement, so be sure to specify to which designated payee each warrant should be made payable. A **sample letter** requesting warrants to be made payable to a designated payee is included as Appendix I-E-1.

• **IRS Reporting Burden**: The IRS requires the reporting of all monies that are lent. For this reason, the burden of reporting to the IRS must remain with the unit of local government that is the recipient of the HOME Program allocation. A unit of local government may use a Designated Payee, but it is the local government's responsibility to report these loans yearly to the IRS.

The Process for Disbursing Funds

- 1) The Department receives the HOME contractor's Administrative Drawdown Request (HOME-4) or Project Drawdown Request (HOME-5). It is approved by the HOME Program Representative, and processed by the HOME Program Fiscal Unit staff.
- 2) A request is forwarded to the Department's Accounting Branch staff, who will electronically authorize a HOME Program Payment Certification Voucher (form HUD-40099) via IDIS, and begin processing a request for the issuance of a State warrant.
- 3) The federal Integrated Disbursement and Information System (IDIS) wires the funds to the State Treasury within 48 to 72 hours from the time the HOME Program Payment Certification Voucher was processed in IDIS.
- 4) The State Controller's Office (SCO) or the Department mails the State warrant to the HOME contractor, usually within six working days from the day the voucher was processed in IDIS.

This process takes approximately 3 to 4 weeks.

The 15-Day Clock: It is the responsibility of the HOME contractor to ensure that HOME funds are expended and paid out of the HOME contractor's local account within 15 days from the date that the funds were wired from the Federal Treasury. The wire date appears on the remittance advice that is attached to the State warrant; it is not the date of the check. Any funds that are not expended on eligible costs and are not disbursed from the HOME contractor's local account within the 15 days must be returned to the Department, for return to HUD. Please return the funds in the form of a check and a letter of explanation to the address listed below:

State of California
Department of Housing & Community Development
Administration & Management Division
Accounting Office Branch, Cashier
P.O. Box 952050
Sacramento, CA 94252-2050

Include in the body of the letter:

- ➤ The Standard Agreement number
- ➤ Either the old CMI project number or the new IDIS activity number
- A brief explanation of why the funds are being returned

Also submit to the Department **a copy** of both the letter and the check to the address below (do not mail checks to the address below):

State of California Department of Housing & Community Development Division of Community Affairs P.O. Box 952054, MS 390-4 Sacramento, CA 94252-2054

Attn: HOME Program Fiscal Unit

Because the Return of Funds process can take several months to complete, contractors are cautioned to only request funds in amounts that can safely be expended within the 15-day clock. Contact your HOME Program Representative for assistance resolving problems that involve return of funds.

How to Return Unused Funds

Unused HOME Program funds and any interest earned on any unused HOME Program funds is required by federal regulations 24 CFR Sections 92.502(c)(2) and (3) and the State Regulations Section 8215(c)(2) to be returned to the Department for return to HUD. Please return the funds in the form of a check and a letter of explanation to the address listed below:

State of California
Department of Housing & Community Development
Administration & Management Division
Accounting Office Branch, Cashier
P.O. Box 952050
Sacramento, CA 94252-2050

Include in the body of the letter

- ➤ The Standard Agreement number
- ➤ Either the old CMI project number or the new IDIS activity number
- A brief explanation of why the funds are being returned

Also submit to the Department **a copy** of both the letter and the check to the address below (**do not mail checks to the address below**):

State of California
Department of Housing & Community Development
Division of Community Affairs
P.O. Box 952054, MS 390-4
Sacramento, CA 94252-2054
ATTN: HOME Program Fiscal Unit

F. EXPENDITURE MILESTONES FOR PROGRAMS; DEADLINES FOR PROJECTS

HOME funds must be spent expeditiously due to deadlines imposed by HUD, which the Department in turn imposes on HOME contractors. These deadlines have been amended in the past year, and differ depending on whether a program or a project was funded.

Program Expenditure Milestones Requirements

The program milestones are as follows:

- 25 percent of the activity dollars (defined as the non-administrative portion of the award) must be expended within 15 months of the date of the award letter. For example, awards were made Jan. 31, 2003, so the first milestone will be April 30, 2004;
- 45 percent of the activity dollars must be expended within 21 months of the date of the award letter;
- 65 percent of the activity dollars must be expended within 27 months of the date of the award letter;
- 85 percent of the activity dollars must be expended within 33 months of the date of the award letter; and
- 95 percent of the activity dollars must be expended within 39 months of the date of the award letter. This 39-month deadline is also known as the final expenditure deadline, beyond which funds may not be drawn down, unless it can be demonstrated that the costs were incurred prior to the final expenditure deadline. All expenses, including Administration, Activity Delivery costs, and Activity costs must be requested within two months of the expenditure deadline.

Recent regulatory amendments allow the HOME Program to extend these milestones if unexecuted contracts are not mailed to HOME contractors within 90 days of the date of the award letter.

Penalties for missing these milestones are as follows:

- No penalty if one expenditure milestone is missed;
- The contractor loses all performance points on the next application for funds if any two consecutive milestones are missed;
- The contractor will be "held out" in the next funding cycle, i.e., not allowed to apply for funds, and will lose all performance points the next time a funding application is submitted if any three milestones are missed.

Exception to these penalties:

An exception to these penalties applies if a contractor discovers that it will not be able to successfully market the program due to changing economic circumstances, such as documented skyrocketing home prices. The contractor can voluntarily disencumber the remaining portion of the award within 12 months of the date of the award letter, and will not be penalized for doing so.

Project Deadlines

Project deadlines are as follows:

- Permanent financing must be committed within 12 months of the date of the award letter, or within 17 months for projects proposing tax credits;
- The complete setup package must be submitted to the Department no later than 16 months of the date of the award letter.
- Projects must be set up in the federal Integrated Disbursement Information System within 18 months of the date of the award letter:
- Construction loan closing must occur within 24 months of the date of the award letter, except for self-help construction projects, for which construction loan closing must take place within 30 months;
- Final expenditure deadline for projects is 42 months from the date of the award letter.

The penalty for missing any of these deadlines is disencumbrance of the HOME award.

Rewards for Programs and Projects

In the 2002 NOFA competition, contractors who have met certain requirements were allowed to apply for more funds than other contractors. Depending on future allocations, the Program may continue this practice in the future funding rounds.

G. PERFORMANCE REPORTS

In order to monitor the progress of their HOME-funded activities, HOME contractors are required to submit quarterly and annual reports to the Department. The filing of quarterly and annual performance reports is very important because the Department uses these reports to complete its required reports to HUD. Timely submittal of the required reports is a factor used by the Department in awarding points for performance for successive applications. Failure to provide these reports on a timely basis may result in penalties for successive applications of both CHDOs and State Recipients.

Quarterly Performance Reports

HOME contractors must submit to the Department a performance report on Form HOME-2, Quarterly Performance Report (Appendix I-G-1, no later than 30 days after the end of each calendar quarter (March 31, June 30, September 30 and December 31) until the project completion report is accepted in IDIS. New contractors must submit a report for the period ending June 30 of the year they were awarded HOME funds. The Department will not process payment requests submitted by contractors who have not submitted their Quarterly Performance Reports.

The Quarterly Performance Report Form contains the following:

- A <u>Narrative Summary</u> section asking for: a description of activities undertaken and completed during the last calendar quarter; a description of planned activities for the next quarter, a discussion of any complaints received; a description of any problems that have arisen that may impact fulfilling any contract obligation; and data on the use of HOME Program Income and Recaptured Funds.
- A <u>Financial Summary</u> section asking for: a beginning amount for all project activities as specified in the Standard Agreement, including allocation, drawdown, balance and percentage information; match amounts; administrative allocation and expenditure data; and an accounting of Program Income, Recaptured Funds, and Repayment of Funds to the State.
- <u>Signature, Title and Date</u>: The person submitting the quarterly report should provide his/her title, then sign and date the form.

Annual Performance Reports

Annual Performance Report forms are mailed out by the Department in June and must be returned to the Department by July 31. The report must be submitted annually until the affordability period of the HOME-funded program or project has expired. The Annual Performance Report forms are revised each May to meet current HUD reporting requirements.

The **Annual Performance Report** consists of the following items:

- 1. Participant Information
- 2. Program Income
- 3. Minority Business Enterprise/Women's Business Enterprise Report
- 4. Section 3 Report
- 5. Relocation and Real Property Acquisition Reports
- 6. Match Log
- 7. HOME Match Report
- 8. Summary of Households Assisted
- 9. Compliance with OMB Circular A-133.

H. PROJECT COMPLETION REPORTS

Project completion is the conclusion of the fiscal process for individual projects that have been fully disbursed.

Program Policy

- Within 60 days of receipt of the final draw requested for a project, the HOME Contractor is required to submit a Project Completion Report form to the Department as required by 24 CFR Section 92.502(d).
- If the Contractor does not submit a project completion report within the 60 days, the Department may suspend further project set-ups or disbursements until a Project Completion Report is received by the Department and processed in IDIS.
- Although the federal rules require that a Project Completion Report be submitted to HUD
 within 120 days of the final drawdown request, the State HOME Program regulations
 require the report to be submitted within 60 days.
- The Federal Integrated Disbursement and Information System (IDIS) may suspend further project set-ups and disbursements to agencies that have not submitted a project completion report within 120 days of receipt of the final draw request.
- If a multiple-unit project is not fully occupied by the date the completion report is due, a completion report should be submitted with all information available at the time. An amended report should be filed when the remainder of the occupancy data is known. Vacant units do not count toward the income targeting requirements of rental projects. Participants who do not file an amended report on vacant rental units may fail to meet occupancy requirements and could incur a monitoring and/or audit finding.
- Because a project's final draw will trigger the need to submit a Project Completion Report, you should not request a final drawdown until it is reasonable to expect that a project can be completely occupied. Under certain circumstances, you may leave \$100.00 remaining in the project account for future drawdown once the project is completely occupied. Contact your State HOME Program Representative for more information about when to leave a small un-disbursed balance in a project.
- Project Completion Reports are not required for tenant-based rental assistance projects. A final draw request will complete the fiscal process for this type of project.
- If the amount of HOME funds has <u>decreased</u> and/or the amount of other funding sources has increased or decreased, you may submit these changes on the Project Completion Report rather than on a revised Set-Up Report. A listing of funding source codes is at Appendix I-D-5, Project Funding Source Detail Listing (HOME-3).

Procedures

To complete a project, submit a completed HOME-Required Project Completion Report to the Department. Use the most appropriate of the following forms:

- Homeownership Assistance Project Completion Report, Form HOME-9 (Appendix I-H-1)
- Multiple-unit Homeownership Assistance Project Completion Report, Form HOME-10 (Appendix I-H-2)
- Rental Housing Project Completion Report, Form HOME-11 (**Appendix I-H-3**)
- A listing of funding source codes is at Appendix I-D-5, Project Funding Source Detail Listing (HOME-3).

If Project Set-up was under the old federal Cash Management Information (CMI) system (prior to 11/9/99), then do the following:

- Write the State Standard Agreement number, including the two-digit Project Suffix of the project completed in the upper right-hand corner of the form (e.g. 98-HOME-0234-01). This number can be found on either the original submission of the HUD Project Set-Up form or the HCD New Project Set-Up Sheet (in the Notes: field).
- Enter the CMI system generated 10-digit number in Part A, Box 1 (e.g. 1234567890). This number can be found in Part A, Box 1 of the Original HUD Set-Up Form or the New Project Set-Up Sheet (in the Project No. Field).

If Project Set-up was in IDIS (after 11/9/99), then do the following:

- Write the Grantee Activity Number in the upper right-hand corner of the form (e.g. M980234-01). This number can be found on the New Project Set-Up Sheet (in the Project No. Field).
- Enter the HUD Activity Number in Part A. Box 1 of the HUD Set-Up Report (e.g. 5236). This number can be found on the New Project Set-Up Sheet (in the Notes: field).

I. WHAT IS PROGRAM INCOME?

Program income means gross income received by the PJ or State Recipient directly generated from the use of HOME funds or matching contributions. Program income includes, but is not limited to, the following:

- Proceeds from the disposition by sale or long-term lease of real property acquired, rehabilitated, or constructed with HOME funds or matching contributions;
- Payments of principal and interest on loans made using HOME funds or matching contributions;
- Proceeds from the sale of loans made with HOME funds or matching contributions;
- Proceeds from the sale of obligations secured by loans made with HOME funds or matching contributions;
- Interest earned on program income pending its disposition;
- Any other interest or return on the investment permitted under 92.205(b) of HOME funds or matching contributions; and
- Gross income from the use or rental of real property, owned by the State Recipient that was acquired, rehabilitated, or constructed, with HOME funds or matching contributions, less costs incidental to generation of the income.

Eligible Administrative and Planning Costs (24 CFR 92.207)

Up to 10% of the program income deposited in the State Recipient's local HOME account may be used for administrative and planning costs. Reasonable administrative and planning costs include:

- Overall program management, coordination, monitoring, and evaluation
- Staff and overhead
- Public information
- Fair Housing activities
- Indirect costs
- Preparation of the consolidated plan
- Costs of complying with the Federal requirements detailed in subpart H of the Final Rule

Program income used for eligible administrative and planning costs <u>must be</u> derived from the following sources:

- The interest portion of repayments
- The principal portion of repayments only if the period of affordability has expired
- The State Recipient's share of equity in excess of the original HOME loan amount

Program income generated by housing that is only partially assisted with HOME funds or matching funds shall be pro-rated to reflect the percentage of HOME funds or match used.

How Is Program Income Different from Recaptured Funds?

On October 12, 2001, a Management Memo was sent to all HOME State Recipients regarding "HOME Affordability Requirements, the Repayment and Recapture of HOME Funds, and Program Income." A copy is available in Chapter XI at the end of this manual (Appendix XI-A). Please note that the Management Memo contains the Department's requirements for determining which funds are "Recaptured" and which are program income, allowable uses of recaptured funds, and the requirements pertaining to rental housing. Please make sure to you read this memo.

HUD makes an important distinction in the way PJs and State Recipients can use Program Income and Recaptured Funds.

Important: Don't Miss Your Milestones due to Program Income

All program income must be expended on eligible HOME expenses before additional HOME funds may be drawn down from the U.S. Treasury. Available program income must be used to pay the next eligible program cost (or portion thereof).

However, State Recipients may elect to return program income to the Department, a move some State Recipients may want to consider if the required program income expenditure means that they will miss one or more of their expenditure milestones for a program they are administering. Expenditure milestones are discussed in Section F of this chapter. Please note that a revised Project Funding Source Detail form is required when program income is spent on a project in place of HOME Program Funds.

When Are Program Income/Recaptured Funds Considered Disbursed?

Program Income/Recaptured Funds are considered expended **ONLY** when the "check is cashed." (i.e., when the ultimate payee cashes the check);

Funds are NOT considered expended when the State Recipient enters into an agreement with any party (i.e., administrative subcontractor, developer, borrower) to expend funds at a later date (i.e. for progress payments, for future pre-development or land acquisition expenses, for loans to be made at a future date).

State Recipients should prepare a monthly statement of available program income and recaptured funds. This statement must be consulted and all funds shown on this report must be expended prior to draw down of additional HOME funds.

How Can Program Income Be Used?

Program income can be used for any activity eligible under the HOME program. It does not have to be the same activity as your current program, nor the same activity as that from which it was generated. All HOME program rules and federal overlay requirements apply to assistance provided with program income. State Recipients must perform an environmental assessment for the proposed activity and make the appropriate finding before proceeding with choice limiting actions.

Who Receives Program Income?

HUD allows State Recipients to retain program income in accordance with 24 CFR 92.503 (a)(1). Upon expiration of the Standard Agreement, any program income that a State Recipient has on hand, as well as any future program income (accounts receivable) must be returned to HCD, as specified in the Standard Agreement.

CHDO Proceeds

CHDOs are not permitted to retain program income, called CHDO proceeds, at this time. CHDO proceeds, which include interest on HOME loans or proceeds from permanent financing, are similar to program income, but may be used differently. Currently CHDO proceeds must be deposited in the State's local account, and are redistributed through a subsequent NOFA.

How To Manage Program Income

The Department recommends that State Recipients that retain their own program income follow the Department's Best Quality HOME Servicing (BQHS) Guidelines to assure that they successfully manage their program income. Copies of the guidelines are available upon request from your HOME representative.

BQHS guidelines suggest that State Recipients adopt written policies and procedures to administer program income, and should have adequate staff, separation of duties, systems, etc. These procedures should accomplish the following:

- Account for HOME funds separately from any other funding sources (no co-mingling of funds) through use of a tracking system and reporting;
- Disburse program income prior to submitting a draw request to the Department;
- Provide a written reallocation and reuse process that:
 - ➤ Distinguishes between program income and recaptured funds
 - > Ensures appropriate reuse of funds
 - > Provides for timely processing

- Accounts for administrative funds (up to 10% of program income) through fiscal accounting and a separate tracking system to ensure administration funds are used for eligible activities;
- Return program income to the Department after the Standard Agreement expires.

Program Income Reporting

Quarterly and Annual Reports displaying the status of Program Income are required of all State Recipients, even those that do not have an active HOME contract. See Section G (Performance Reports) of this chapter for detailed information. The Quarterly and Annual Reports must clearly show the amount of Program Income and Recaptured Funds received during the year, expended for HOME-eligible activities and HOME-eligible administrative expenses, the balance of the end of the reporting period and how many households were assisted through expenditures.

J. REQUIRED RECORDKEEPING AND FILES

Fiscal Records

Contractors must maintain an accurate and complete set of accounting records for all financial transactions. They must also maintain supporting documents, statistical records, and all other records pertinent to the HOME Program Standard Agreement until all loans made under the HOME Program Standard Agreement have been repaid, or for a period of five years after the Project Completion Report is received by the Department, and forwarded and accepted by IDIS, whichever occurs later. A table of record keeping requirements by type of activity is included in Appendix I-J-1.

Records and files shall include, at a minimum, the following:

- 1. HOME Program Application (HOME-1);
- 2. Executed Standard Agreement and any amendments thereto;
- 3. Correspondence to the Department describing steps taken to satisfy Standard Agreement condition(s) and supporting documentation;
- 4. Correspondence from the Department accepting compliance with the Standard Agreement condition(s);
- 5. Environmental review documentation;
- 6. HOME Program Activity Budgets;
- 7. HOME Program Project Set-up Reports (HOME-7 and HOME-8) and accompanying Project Funding Source Detail Forms (HOME-3);
- 8. Administrative Drawdown Request Forms (HOME-4);
- 9. Project Drawdown Request Forms (HOME-5) submitted to HCD, and Payment Certifications received from HCD for each drawdown;
- 10. HOME Program Project Completion Reports (HOME-9, HOME-10, and HOME-11). The HOME-6 was discontinued in 4/2003;
- 11. Fiscal records that identify the specific use of HOME Program funds by contract, activity, cost category, and project, by month;
- 12. Invoices, timesheets, and other source documentation of expenditures charged to the HOME Program Standard Agreement;

- 13. Documentation of expenditures made by the other funding sources such as CDBG, redevelopment set-aside funds, local general fund, private financial institutions, other State funds, and matching funds;
- 14. Records documenting the acquisition and disposition of all personal property purchased with HOME Program funds;
- 15. Approved "Indirect Cost Rate Plan," if charging indirect costs to general administration; and
- 16. Bank statements.

Other Recordkeeping Requirements

The exceptions to the five-year recordkeeping requirements are as follows:

• Rental housing:

- o General records must be kept five years after project completion; and
- o Tenant income, rent, and inspection information must be kept for the most recent five years, until five years after the affordability period ends.

• Homeownership:

- Homeownership records must be kept for five years after project completion;
 and
- o For resale / recapture records, five years after the affordability period ends
- **TBRA:** Records must be kept for five years after rental assistance ends.
- Written Agreements: Generally, all written agreements must be maintained for five years after the agreement ends.
- **Displacement and Acquisition:** Records must be kept for five years after final payment to displaced persons.
- If any litigation, claim, negotiation, audit, monitoring, inspection, or other action has been started before the expiration of the required record retention period, records must be retained until completion of the action and resolution of all issues which arise from it, or until the end of the required period, whichever is later.

K. <u>CLOSE-OUT MONITORING</u>

Monitoring in the HOME Program is designed to review HOME contractors' overall performance and adherence to program requirements and to provide technical assistance, as well as determining whether or not housing and housing-related services are being delivered in accordance with HOME requirements.

The principal HOME requirements are that HOME funds be used to provide housing and housing-related services for low- and very low-income residents; that any housing produced with HOME funds meets quality standards and is decent, safe, and sanitary; and that the housing opportunities created with HOME funds be available and affordable for a specific period of time.

There are several basic elements to any monitoring visit:

- 1) The HOME Program representative will call to schedule approximately two or three days for the visit.
- 2) A pre-monitoring letter to confirm the monitoring dates will be sent at least two weeks prior to arrival. The letter will detail the contract number, the activity, the HOME Program representatives who will conduct the interview, and a listing of the areas to be reviewed and documented, as follows:
 - Examination of program guidelines and procedures, program administration, and individual project review, based on the specific activity, as listed below:
 - o Owner-Occupied Rehab,
 - o First-Time Home Buyer,
 - o Rental Acquisition, Rehab or New Construction, and
 - o Tenant-Based Rental Assistance
 - Determination whether Standard Agreement provisions and conditions have been met (including match, leverage, and other special conditions);
 - Verification of whether the program's or project's costs were eligible and allowable, including a review of the use of HOME funds, whether activities were eligible, administrative costs, staff costs, time sheets;
 - Verification of whether the contractor is correctly calculating income to determine
 if households are low-income or very low-income as required by the HOME
 program;
 - Examination of the required subsidy layering analysis to verify that State Recipients and CHDOs have not invested more of HOME Program funds, in combination with other governmental assistance, than is necessary in any one project to provide affordable housing;

- Verification of the program or project's compliance with the following federal overlay requirements:
 - o Fair Housing, Equal Opportunity, and Affirmative Marketing
 - o Environmental Review
 - o Flood Insurance (if applicable
 - o Labor Standards (if applicable)
 - o Lead-based Paint (if applicable)
 - o Procurement
 - o Relocation (if applicable)
- 3) Upon arrival, the HOME representatives will conduct an entrance interview to make sure that the staff persons providing assistance have a clear understanding of the purpose, scope and schedule for the monitoring.
- 4) HOME representatives will keep a detailed record of information reviewed and conversations held with staff during the monitoring visit. The information will be documented on checklists based on the HOME Program requirements for each type of program or project. The information gathered will serve as a basis for conclusions to be included in the monitoring report and follow-up letter.
- 5) At the conclusion of the monitoring, HOME representatives will meet again with key staff persons to:
 - Present preliminary results of the monitoring,
 - Provide an opportunity to correct any misconceptions or misunderstandings,
 - Secure additional information to clarify or support their position, and
 - If applicable, provide an opportunity to report on steps the organization may already be taking to address areas of noncompliance or nonperformance
- 6) Within 30 days of the monitoring visit, the HOME monitoring staff will send a follow-up letter containing formal notification of the results of the monitoring. The letter will recognize contractors' successes, outline any findings and concerns, and set deadlines for a written response and corrective actions.
 - A "finding" is a deficiency in program or project performance, a statutory or regulatory requirement that was not met. Sanctions or other corrective actions are authorized in these cases;
 - A "concern" relates to program or project performance that should be improved before it leads to a finding;
 - A written response must be submitted to your HOME Program representative within 30 days of receiving your HOME monitoring follow-up letter.
- 7) Once all the corrective actions have been completed, the HOME monitoring staff will send a letter stating that the monitoring "findings" have been closed.

L. <u>LONG-TERM MONITORING</u>

There is a significant difference between State Recipient and CHDO responsibilities in long-term monitoring, which is on-going monitoring during the entire affordability period of rental projects. The difference is based upon the following:

STATE

RECIPIENTS:

State Recipients are responsible to the Department for the long-term monitoring of rental projects for the entire period of affordability. The Department, as a participating jurisdiction, is responsible to HUD to ensure that State Recipients are monitoring appropriately for continued compliance with federal and state regulations.

CHDOs:

During the required period of affordability, the Department is directly responsible to HUD for the on-site monitoring of CHDO rental projects and ensuring continued compliance with federal and state regulations.

What's New!

- 1. Effective January 1, 2003, State Recipients and CHDOs were required to begin collecting data using ten new race categories and a separate collection category for Hispanic/Latino ethnicity. For more information, please see HOME Management Memorandum 02-03 located in Chapter XI "Other Reference Materials" and the Long Term Monitoring checklist for Affirmative Marketing/Fair Housing located in **Appendix I-K**.
- 2. Effective October 31, 2002, the HOME Final Rule had 8 sections revised. The following three affect Long-Term Monitoring:
 - 24 CFR Part 92.209 Tenant-based Rental Assistance
 - 24 CFR Part 92.214 Prohibited Activities
 - 24 CFR Part 92.253 Tenant & Participant Protections

Types of Monitoring

The HOME Program has expanded Long-Term Monitoring to include field visits and office reviews for both State Recipients and CHDOs.

Office Review:

<u>CHDOs</u> will receive a Management Questionnaire and letter requesting the project's Annual Report. It is to be completed and returned to the Department with the Annual Report forms, current Management Plan/Agreement, inspection schedule, sample of the project's lease agreement, and Affirmative Marketing Plan.

<u>State Recipients</u> will receive an Annual Monitoring Report form and a letter requesting documentation to certify continued compliance. The report is to be completed and

returned to the Department with the annual Project Compliance Report (for owner completion), long-term monitoring procedures, and monitoring schedule.

<u>Field visits</u> are discussed in depth in the remainder of this section.

State Recipient HOME-Assisted Rental Projects

The Department will monitor the State Recipient's long-term monitoring processes to ensure continued compliance with federal regulations regarding income determinations of households assisted [92.203]; rents [92.252]; affirmative marketing/fair housing [92.351 and 24 CFR 1.4, 24 CFR 200, and 24 CFR 207.30]; lead-based paint [92.355]; and property standards [92.251].

Additionally, the State Recipient is responsible for conducting on-site property standards inspections according to the schedule contained in 92.504 (d) (1). We recommend that the HUD Inspection Checklist (52580 form) should be used or adapted for use when conducting property inspections. See the last section "Additional Resources" for the website address to obtain this form.

During the affordability period, the Department will conduct periodic office <u>and</u> on-site reviews of the State Recipient's monitoring data, reports and on-site physical inspection of project(s) to verify:

- 1. <u>Continued income eligibility</u>: The State Recipient must maintain data and reports confirming that the owner, or its management agent, annually re-certifies the income of each household living in HOME-assisted low-income units, and that the tenancy still meets the HOME income requirements. In an effort to promote consistency, the Department provides a monitoring form entitled "Project Compliance Report-Rental Housing" for the State Recipient. It is to be completed annually by the project owner and reviewed by the State Recipient for program compliance. See the last section "Additional Resources" for the website address to obtain this form. The Department will request these forms for review during long-term monitoring.
- 2 <u>Continued occupancy eligibility:</u> For projects with five or more units, a minimum of 20% of HOME-assisted units must continue to be occupied by very low-income households paying low HOME rents for the term of affordability, in accordance with the income limits published annually by HUD.
- 3. **Maximum monthly rents** of HOME-assisted units must be verified annually. Rents may not exceed low and high HOME rent limits as published annually by HUD. HOME rents include the tenant utility allowance provided by the local housing authority.

When tenants receive additional subsidy through tenant-based rental assistance programs such as Section 8, additional requirements apply. Under the HOME Program, the total contract rent for tenants receiving Section 8 assistance is the tenant's share of rent, the utility allowance, and the subsidy payment. The total of these amounts can't exceed the

allowable HOME rent. For more information, see page 35 of <u>"Asset Management: Strategies for the Successful Operation of Affordable Rental Housing" HUD May 2000.</u>

Very low-income residents receiving <u>project-based</u> rental subsidies are subject to rents allowable under the federal or State project-based rental subsidy program, not the HOME rent limits.

Rents for over-income tenants: An interim rule published in 1997 added language to distinguish a difference between over-income tenants in fixed and floating units:

- Adjusting rents for over-income tenants in "fixed" unit projects: Over-income tenants (those with incomes over 80% of the area median) in HOME-assisted "fixed" units must pay the lesser of the amount payable by the tenant under State or local law (rent control) or 30% of the household's adjusted income for rent and utilities. There is no rent cap for "fixed" units.
- Adjusting rents for over-income tenants in "floating" unit projects: Over-income tenants in HOME-assisted "floating" units must pay 30% of their adjusted income for rent and utilities. However, the rent may not exceed the market rent for comparable, unassisted units in the neighborhood.
- 4. For rental projects with five or more housing units, the State Recipient must assess whether the project has been **marketed affirmatively** and ascertain that no discrimination has occurred.

All HOME contractors are prohibited from discrimination in the administration of the HOME program based on protected class status. Up-to-date records of the race, ethnicity, gender, disability, and age must be maintained on file by each project owner to demonstrate that the project does not discriminate against any protected class:

- Residents of the community (based on census data, surveys)
- Project <u>applicants</u>
- Project <u>residents</u> (to verify that selections were without regard to race, color, national origin, sex, religion, familial status or disability)
- Rejected applicants
- <u>Annual analysis</u> demonstrating that the HOME-assisted housing is provided to all people regardless of their protected class status (e.g., if a community is 50% Hispanic, then 50% of a project's residents would likely be Hispanic)
- <u>Tenant Selection Procedures</u> / actual logs that demonstrate that tenants are selected according to objective measures (e.g., income eligibility, credit checks, household size)

Additionally, owners are required to practice the following affirmative marketing procedures in marketing the project and provide documentation in an "Affirmative Marketing" file to demonstrate that it was done:

- Advertisements placed in newspapers with the broadest possible circulation, including foreign language newspapers in areas with a high percentage of non-English speaking residents. (The purpose is to attract eligible persons without regard to race, color, national origin, sex, familial status or disability.)
- Place the Fair Housing logo on all advertisements and marketing materials.
- Prominently display Fair Housing posters at rental offices.
- 5. The State Recipient must perform **on-site monitoring** to determine compliance with lead-based paint requirements and property standards, and **perform income and rent verifications**. We recommend that the HUD Inspection Checklist (52580 form) should be used or adapted for use when conducting property inspections. See the last section "Additional Resources" for the website address to obtain this form.

The *minimum* schedule is based on the *total* number of units in the project.

Total # of units	Minimum Schedule		
1-4 units	3 years		
5-25 units	2 years		
26+ units	1 year		

State Recipients are required to have a written system in place to review HOME compliance and are encouraged to review the section "CHDO HOME-Assisted Rental Projects" to identify the "best practices."

NOTES		

Tenant-Based Rental Assistance (TBRA) Rental Projects

What is TBRA?

Unlike project-based subsidy programs in which tenants receive assistance only if they live in certain developments, TBRA enables eligible tenants to receive assistance in rental units of their own choosing, provided the units meet basic program requirements. TBRA works best where there is a sufficient supply of decent, safe, and sanitary housing – where <u>affordability</u>, not <u>availability</u> of housing is the problem. For more information about TBRA, see "Additional Resources" at the end of Section L.

Monitoring by the State Recipient

Execution of key program documents and the start of subsidy payments is the end of one important phase of TBRA, but only the beginning of another. For the full term of the TBRA contract, the State Recipient has important operational responsibilities.

1. <u>Housing Quality Standards Inspections</u>: The HOME Program regulation requires that all units assisted with HOME funds meet Section 8 HQS. The State Recipient is responsible for on-site inspections, at least annually, of rental housing occupied by tenants receiving HOME-assisted TBRA to ensure compliance with the property standards of 92.251. Units may also be inspected as a result of housing quality complaints initiated by the owner or the tenant.

We recommend that the HUD Inspection Checklist (52580 form) should be used or adapted for use when conducting property inspections. See the last section "Additional Resources" for the website address to obtain this form.

2. <u>Annual Eligibility Determinations</u>: Each household's eligibility to participate in the program and its share of the rent must be confirmed annually. If a participating household's income exceeds the Section 8 Low-Income Limit, the household's assistance must be ended.

In order to assure that the re-examine of household size, composition, and income is completed on time and that adequate notice is given to both the owner and tenant of changes in the household's eligibility or share of the rent, the re-examination process should begin 60 - 90 days in advance of the household's one-year anniversary.

3. <u>Processing Requests for Rent Increases</u>: Typically, owners offer leases that specify the rent for one-year. This means that, unless the State Recipient has negotiated a two-year rent, most owners will request a rent increase at the end of the first year of the contract. The State Recipient must again determine that the proposed rent is reasonable in comparison to rents charged for comparable, unassisted units, and also that it is within any other limitations established in the State Recipient's program.

- 4. Moves and Termination of Tenancy: Tenants may elect to move to another unit, as permitted by the lease. The HOME Rental Assistance Contract contains provisions that terminate the State Recipients agreement with the owner when the household moves out. To assure that subsidy is not paid on units no longer occupied by an eligible tenant, the State Recipient should require tenants to give advance notice of their plans to move out, and owners to inform the State Recipient when tenants move out.
- 5. <u>Updating Policies and Procedures</u>: At least annually, the State Recipient should review key program operating procedures to determine if revisions are required. At a minimum, assess the appropriateness of your payment standards and utility allowance schedule. Changes to either should be implemented in an equitable fashion. This may be done by making changes effective for all participating households immediately, or at each household's next annual re-examination.
- 6. <u>Monitoring Key Performance Indicators</u>: Program administrators should monitor progress on an on-going basis to assure that the regulatory statutory requirements are met and to assess program outcomes. Key performance indicators that should be considered are budget vs. actual spending, on-time payments, outreach and success rates, administrative efficiency, and turnover.

Long-Term Monitoring by the State

The Department will monitor the State Recipient based on the HOME Final Rule, 24 CFR 92.209 "Tenant-based Rental Assistance: Eligible Costs and Requirements" as amended effective October 31, 2002.

NOTES:			
L			

CHDO HOME-Assisted Rental Projects

The Department will monitor the CHDO to ensure continued compliance with federal regulations regarding income determinations of households assisted [92.203]; rents [92.252]; affirmative marketing/fair housing [92.351 and 24 CFR 1.4, 24 CFR 200, and 24 CFR 207.30]; lead-based paint [92.355]; and property standards [92.251].

In addition, the Department will monitor whether the HOME Regulatory Agreement requirements have been met, regarding:

- Deposits to and use of the operating and replacement reserves;
- Continuance of hazard and liability insurance;
- Submission of the <u>proposed</u> operating budget sixty days <u>prior</u> to the beginning of the project's fiscal year;
- Submission of the annual report sixty days after the end of the project's fiscal year;
- Provisions regarding sponsor distributions;
- Debt service payments; and
- Other requirements contained in the Regulatory Agreement.

Annual monitoring of project rents and tenant incomes will be accomplished by the Department through review of the Annual Report's <u>Occupancy and Rent Schedule (HOME #184</u>), prepared by the CHDO for each rental project. See the last section "Additional Resources" for the website address to obtain this form.

During the period of affordability, the Department will conduct on-site monitoring visits, in accordance with 92.504 (d)(1). The $\underline{minimum}$ schedule is based on the \underline{total} number of units in the project.

Total # of units	Minimum Schedule		
1 – 4 units	3 years		
5-25 units	2 years		
26+ units	1 year		

During the on-site visit, the Department will monitor to ensure continued compliance with the following federal requirements:

- 1. **Continued** <u>income</u> eligibility: The CHDO must maintain data and reports confirming that the CHDO, or its management agent, annually re-certifies the income of each household living in HOME-assisted units.
 - The on-site monitoring will provide staff the opportunity to verify that the data submitted in the Annual Report's <u>Occupancy and Rent Schedule (HOME-184)</u> is accurate.

- Monitoring will verify whether the CHDO is correctly calculating income (using the CFR/Part 5 definition) to ascertain if households are low-income or very lowincome as required by the HOME program.
- Documents to Review: Household and financial data reported to the Department; individual files containing family source documents evidencing annual income, such as pay stubs, unemployment compensation statements, 3rd party verification, W-2s, tax returns, bank statements, other asset reports.
- 2. **Continued** <u>occupancy</u> eligibility: On-site monitoring will give the HOME monitoring staff the opportunity to verify data submitted in the Annual Report's <u>Occupancy and Rent Schedule</u> (HOME-184).

For rental projects with five or more units, a minimum of 20% of HOME-assisted units must continue to be occupied by very low-income households in accordance with the income limits published annually by HUD.

Refer to the project's <u>HOME Regulatory Agreement</u>, <u>Exhibit B "Schedule of Assisted Units"</u> for the specific number of HOME units assigned to Low HOME Rents or High HOME Rents.

3. **Maximum monthly rents of HOME-assisted units** must be verified annually by the CHDO or its agent. Rents may not exceed low and high HOME rent limits as published annually by HUD. The HOME rent limits include the tenant utility allowance provided by the local housing authority.

When tenants receive additional subsidy through tenant-based rental assistance programs such as Section 8, additional requirements apply. Under the HOME Program, the total contract rent for tenants receiving Section 8 assistance is the tenant's share of rent, the utility allowance, and the subsidy payment. The total of these amounts can't exceed the allowable HOME rent.

For more information, see page 35 of <u>"Asset Management: Strategies for the Successful</u> Operation of Affordable Rental Housing" HUD May 2000.

Very low-income residents receiving <u>project-based</u> rental subsidies are subject to rents allowable under the federal or State project-based rental subsidy program, not the HOME rent limits.

Rents for over-income tenants: An interim rule published in 1997 added language to distinguish a difference between over-income tenants in fixed and floating units:

• Adjusting rents for over-income tenants in "fixed" unit projects: Over-income tenants (those with incomes over 80% of the area median) in HOME-assisted "fixed" units must pay the lesser of the amount payable by the tenant under State or local law (rent control) or 30% of the household's adjusted income for rent and

utilities. There is no rent cap for "fixed" units.

- Adjusting rents for over-income tenants in "floating" unit projects: Over-income
 tenants in HOME-assisted "floating" units must pay 30% of their adjusted income
 for rent and utilities. However, the rent may not exceed the market rent for
 comparable, unassisted units in the neighborhood.
- 4. <u>Affirmative Marketing:</u> For projects with five or more housing units, the Department will assess the affirmative marketing program for the project to determine the success of affirmative marketing actions and to prescribe any necessary corrective actions.

All CHDOs are prohibited from discrimination in the administration of the HOME program based on protected class status. Up-to-date records of the race, ethnicity, gender, disability, and age must be maintained on file by each project owner to demonstrate that the project does not discriminate against any protected class:

- Residents of the <u>community</u> (based on census data, surveys)
- Project applicants
- Project <u>residents</u> (to verify that selections were without regard to race, color, national origin, sex, religion, familial status or disability)
- Rejected applicants
- <u>Annual analysis</u> demonstrating that the HOME-assisted housing is provided to all people regardless of their protected class status (e.g., if a community is 50% Hispanic, then 50% of a project's residents would likely be Hispanic)
- <u>Tenant Selection Procedures</u> / actual logs that demonstrate that tenants are selected according to objective measures (e.g., income eligibility, credit checks, household size)

Additionally, CHDOs are required to practice the following affirmative marketing procedures in marketing the project and provide documentation in an "Affirmative Marketing" file to demonstrate that it was done:

- Advertisements placed in newspapers with the broadest possible circulation, including foreign language newspapers in areas with a high percentage of non-English speaking residents. (The purpose is to attract eligible persons without regard to race, color, national origin, sex, familial status or disability.)
- Place the Fair Housing logo on all advertisements and marketing materials.
- Prominently display Fair Housing posters at rental offices.

- 5. The Department will assess compliance with the following lead-based paint, and property standards requirements.
 - Lead-based Paint: Compliance requirements pertaining to mitigation and notification apply only to units constructed before 1978. Effective January 10, 2002, new lead-based paint requirements were based upon the type of activity, as well as the amount and duration of Federal assistance. See Chapter VI of the HOME Contract Management Manual for more information.

All residents of HOME-assisted units must be notified of possible lead-based paint hazards. While not required, consider having the applicant sign a statement signifying that the pamphlet was received. A copy of the statement and pamphlet should be placed in the applicant's individual file.

- **Property Standards:** Under federal HOME regulations and the project's HOME Regulatory Agreement, the project sponsor is responsible for maintaining the project's property standards. The underlying purpose of this requirement is twofold:
 - > To protect the health and safety of the residents; and
 - To protect the financial investment of federal HOME dollars by maintaining the integrity and longevity of the physical structures.

We recommend that the HUD Inspection Checklist (52580 form) should be used or adapted for use when conducting property inspections. See the last section "Additional Resources" for the website address to obtain this form.

NOTES:	

Preparation for On-Site Monitoring for CHDOs and State Recipients

During the Long-Term monitoring visit, HOME staff collects data, inspects selected units and documents information on checklists that reflect HOME Program requirements. The information gathered serves as a basis for the monitoring report.

You will receive at least two (2) weeks prior notice to plan and prepare.

What can you do to facilitate this process?

CHDOs:

- Identify and set up a work area for monitoring staff.
- Identify your key staff to assist during the monitoring and the unit inspections.
- Provide copies of the following documents:
 - ➤ Current tenant rent roll identify manager's apartment and Section 8 subsidized families;
 - Current utility allowance schedule identify effective date;
 - Current Management Plan & Management Agreement;
 - Current insurance policies (hazard / liability);
 - > Sample of current lease;
 - Current Claim for Property Tax Exemption; and
 - ➤ Independent Audit of project for last two fiscal years, if not previously submitted to the Department.
- Provide copies of monthly bank statements for current and last fiscal year pertaining to reserve accounts, general operating account, and security deposit account.
- Gather and have the following files ready for monitoring staff access:
 - Tenant Files (to review leases, income and assets, property inspection forms, notices, rent calculations, lead-based paint statement/pamphlets);
 - Affirmative Marketing and Fair Housing File (to review community census data, demographics of applicants & residents, tenant selection procedures & records, advertisements, fair housing logo and posters).

Notify all HOME-assisted residents that their unit may be inspected (using the Entry and Inspection procedures detailed in the lease).

STATE RECIPIENTS:

- State Recipients must provide documentation to demonstrate that a monitoring system is in place to meet all HOME requirements.
- Documentation should include:
 - o Long-term monitoring inspection schedule;
 - o Long-term monitoring procedures;
 - o Reports to confirm compliance with lead-based paint requirements and property standards;
 - o Annual reports;
 - o Occupancy reports;
 - o Project compliance reports submitted by property owners;
 - Affirmative Marketing and Fair Housing File (to review annual analysis, community census data, demographics of applicants & residents, tenant selection procedures & records, advertisements, fair housing logo and posters);
 - o Current tenant rent roll with the manager's apartment and Section 8 subsidized families identified; and
 - o Current utility allowance schedule with the effective date identified.

As a result of this preparation, monitoring staff will be able to complete all related duties within the scheduled visit.

NOTES:			

General Information – On-Site Monitoring

Monitoring in the HOME Program is designed to review the State Recipient and CHDO's overall performance and adherence to program requirements and to provide technical assistance, as well.

Despite the differences between the long-term monitoring processes of State Recipient and CHDO projects, there are several <u>common basic elements</u> to each monitoring visit:

- A pre-monitoring letter to confirm the monitoring dates will be sent at least two weeks prior to arrival. The letter will detail the contract number, the activity, the HOME Program representatives who will conduct the interview, and the areas to be reviewed and documented on checklists.
- Upon arrival, the HOME representatives will conduct an entrance interview to make sure that the staff persons providing assistance have a clear understanding of the purpose, scope and schedule for the monitoring.
- HOME representatives will keep a detailed record of information reviewed and conversations held with staff during the monitoring visit. The information will be documented on checklists based on the HOME Program requirements for each type of program or project. The information gathered will serve as a basis for conclusions to be included in the monitoring report and follow-up
- At the conclusion of the monitoring, HOME representatives will meet again with key staff persons to:
 - > Present preliminary results of the monitoring;
 - Provide an opportunity to correct any misconceptions or misunderstandings;
 - > Secure additional information to clarify or support their position; and
 - ➤ If applicable, provide an opportunity to report on steps the organization may already be taking to address areas of noncompliance or nonperformance.
 - After the monitoring visit, the HOME monitoring staff will send a follow-up letter containing formal notification of the results of the monitoring. The letter will recognize the contractor's successes, and set deadlines for a written response and corrective actions and outline any findings and concerns as defined below:
 - A "finding" is a deficiency in program or project performance, a statutory or regulatory requirement that was not met. Sanctions or other corrective actions are authorized in these cases;

- ➤ A "concern" relates to program or project performance that should be improved before it leads to a finding;
- A written response must be submitted to your HOME Program representative within 30 days of receiving your HOME monitoring follow-up letter.
- Once all the corrective actions have been completed, the HOME monitoring staff will send a letter stating that the monitoring "findings" have been closed.

More Information

To increase the usefulness of this chapter, additional information may be obtained from the HOME Long-Term Monitoring Manual. Current checklists are provided to assist you in knowing what aspects of your activities will be monitored for compliance and performance. Please keep in mind that the actual checklists used by HOME staff may change over time due to changes in HOME Program requirements, policies, or procedures.

M. <u>SPECIAL STATE RECIPIENT SECURITY DOCUMENT</u> REQUIREMENTS

All security documents must be executed by the State Recipient prior to disbursement of funds to the project and must contain the applicable affordability requirements set forth in 24 CFR 92.252 and 92.254. If the HOME-assisted housing does not meet the affordability requirements for the specified period, repayment of HOME funds is required. All three documents (the Promissory Note, the Deed of Trust, and the Regulatory Agreement) must contain language requiring compliance with all HOME requirements for at least the period of affordability, and requiring advance written State HOME Program approval for any conversion to market rate housing, conversion to homeownership, demolition, or any other action that would prevent the full affordability period from being satisfied. The required security documents are described below:

Promissory Note and Deed of Trust

The State Recipient is required to ensure that all loans made by them are evidenced by a promissory note secured by a deed of trust to be recorded on the property being assisted, or by other security approved by the State in writing. If the State Recipient is not going to retain loan repayments locally, the State HOME Program must be the beneficiary of the promissory note and deed of trust or other approved security.

Regulatory Agreement

A Regulatory Agreement must be executed in addition to a Promissory Note and Deed of Trust prior to the disbursement of HOME funds for any HOME-funded rental project. The owner is required to fulfill its duties and responsibilities with respect to the operation of the project, according to the terms and conditions of the Regulatory Agreement for the affordability period specified in 24 CFR 92.252(e) regardless of sale, transfer, or prepayment, (except under certain foreclosure circumstances). The Regulatory Agreement must also state the amount of the annual Replacement Reserve deposit. The Regulatory Agreement must be recorded in a senior position to the HOME Deed of Trust.

The State Recipient must ensure that the Regulatory Agreement, or a memorandum thereof, is recorded as a lien on the project.

N. <u>SPECIAL CHDO REQUIREMENTS</u>

The federal CHDO requirements published by the Department of Housing and Urban Development in CPD Notice 97-11 are located at:

http://www.hud.gov/offices/cpd/affordablehousing/lawsandregs/notices/cpd9711.pdf

The State HOME Regulations were amended in January 2001. The new regulations require the following:

- An application for certification or recertification as a CHDO must be received by HCD no later than 60 days prior to the HOME NOFA application deadline. This means that if a currently certified CHDO's certification will expire prior to the NOFA application deadline, the recertification package must be received by the Department no later than 60 days before the deadline in order for it to be processed, and for the CHDO to receive a new letter of certification by the NOFA application deadline.
- If a CHDO is affiliated with one or more other CHDOs, only one such affiliate is eligible to submit an application for HOME funds in response to each NOFA.
- New and recertifying CHDOs must have had at least a one-year record of providing a housing-related service to the community in which they intend to be certified. A housing-related service is one which provides a benefit to a tenant or homeowner in the community, such as developing new housing, rehabilitating existing stock, managing housing stock, housing counseling, administering a weatherization program, or operating a homeless shelter. Solely engaging in predevelopment activities for a housing project does not constitute a service to the community.
- In order for a currently certified CHDO to be eligible for recertification, the organization must have applied to the State HOME Program at least once in the preceding three years of certification, **or** must have been active in the housing field, meaning the CHDO must have developed, owned or sponsored housing of any kind, using any funding source, in the preceding three year period. CHDOs serving a county in which there is no other State-certified CHDO are permitted a six year period in which to either apply to the State HOME Program or develop, own or sponsor housing using another funding source.
- New and currently certified CHDOs must be competent in housing development in order to be certified or recertified. The required core housing development competencies are the knowledge, skills and ability to:
 - □ Conduct market/needs analyses and conceptual project design;
 - □ Choose and negotiate purchase of a suitable site;
 - □ Select and work with architects and other consultants;
 - □ Understand and comply with local planning, zoning and building requirements;
 - □ Create a development pro forma and operating budget;
 - □ Set rents or sales prices;

- □ Identify financing sources and apply for financing;
- □ Comply with other lender requirements;
- □ Deal with community concerns;
- □ Comply with CEQA and NEPA requirements;
- □ Choose and work with construction contractors;
- □ Manage the construction process;
- □ Choose and work with a management agent;
- □ Successfully market a project; and
- □ Comply with HOME program requirements, construction close-out and long-term obligations.

If the applicant for **certification or recertification** does not have the experience necessary to meet the above criteria, it can hire a consultant experienced in housing development to train the applicant's staff in the core housing development competencies listed above within two years of its CHDO certification. The executed contract must be provided, and the contract must include a training timetable requiring the training to commence not later than six months of the date of certification/recertification and requiring the training to be completed not later than two years from the date of certification/recertification, and must identify the names and titles of persons being trained and the specific core competencies in which they are being trained.

Pursuant to HUD requirements, the Department is requiring CHDOs to recertify their CHDO certification annually or at least after receipt of an additional award of HOME funds.

Certification Can Be Revoked

The Department shall monitor all CHDOs throughout the term of the certification to ensure continued compliance as a CHDO. If the Department determines that an organization no longer complies with the requirements of this section, the Department may declare the organization to be ineligible to apply for State HOME funds, and the Department may revoke the organization's CHDO certification.

A CHDO can only be funded for projects located in the geographic area(s) for which it is certified.

CHDO Role: Owner, Developer, or Sponsor

CHDOs are prohibited from applying to the State for HOME funds to perform activities that do not include owning, sponsoring or developing affordable housing. Following are the definitions of "owner, developer, or sponsor." In any one of these roles, the CHDO is required to have effective project control.

1. CHDO as "Owner"

The CHDO is an "owner" when it holds valid legal title to, or has a long term (99 year minimum) leasehold interest in a <u>rental</u> property. The CHDO may be an owner with one or more individuals, corporations, partnerships or other legal entities. If it owns the

project in partnership, it or its wholly owned non-profit or for-profit subsidiary must be the managing general partner with effective control (i.e., decision-making authority) of the project. The CHDO may be both owner and developer, or may have another entity as the developer.

2. <u>CHDO as "Developer"</u>

A CHDO is a "developer" when it (a) either owns a property and develops a project, or has a contractual obligation to a property owner to develop a project, and (b) performs all the functions typically expected of for-profit developers, and assumes all the risks and rewards associated with being the project developer.

a) For rental housing, the CHDO must obtain financing, and rehabilitate or construct the project. If it owns the property, the CHDO may maintain ownership and manage the project over the long term, or it may transfer the project to another entity for long-term ownership and management. If it does not own the property, the CHDO must enter into a contractual obligation with the property owner. This contractual obligation is independent of the Department.

or

b) For homebuyer programs, the CHDO must obtain project financing, rehabilitate or construct the dwelling(s), and have title of the property and the HOME loan/grant obligations transferred to a HOME qualified homebuyer within a specified timeframe. If it does not own the property, the CHDO must enter into a contractual obligation with the property owner. This contractual obligation is independent of the Department.

3. <u>CHDO as a "Sponsor"</u>

A CHDO is a "sponsor" for HOME-assisted rental or homebuyer housing according to the circumstances outlined below. In either case, the CHDO must always own the property prior to the development phase of the project:

a) For HOME-assisted rental housing, the CHDO may develop a project that it solely or partially owns and agrees to convey ownership to a second non-profit organization at a predetermined time prior to or during development, or upon completion of the development of the project. The HOME funds are invested in the project owned by the CHDO. The CHDO sponsor selects, prior to commitment of HOME funds, the non-profit organization that will obtain ownership of the property. The non-profit assumes from the CHDO the HOME obligation (including any repayment of loans) for the project at a specified time. If the property is not transferred to the non-profit organization, the CHDO sponsor remains liable for the HOME loan/grant obligation.

The non-profit organization must be financially and legally separate from the CHDO sponsor. (The second non-profit may have been created by the CHDO; nevertheless, it is a separate entity from the CHDO.) The CHDO sponsor must provide sufficient resources to the non-profit organization to ensure the development and long-term operation of the project.

or

b) For a HOME-assisted homebuyer program, the CHDO owns a property, and then shifts responsibility for the project to another non-profit at some specified time in the development process. The second non-profit, in turn, transfers title along with the HOME loan/grant obligations and resale/recapture requirements to a HOME-qualified homebuyer within a specified timeframe.

The HOME funds are invested in the property owned by the CHDO. The other non-profit being sponsored by the CHDO acquires the completed units, or brings to completion the rehabilitation or construction of the property. At completion of the rehabilitation or construction, the second non-profit is required to sell (transfer) the property along with the HOME loan/grant obligations to a homebuyer.

This sponsorship role could include a lease-purchase approach whereby the second non-profit would lease the property to a homebuyer for a period not to exceed three years. At the expiration of the lease, the second non-profit must sell or transfer the property along with the HOME loan/grant obligations to the homebuyer. If the property is not transferred, the second non-profit retains ownership and all HOME rental requirements will apply.

No Substitution of CHDO Without Prior State Approval

Pursuant to the HOME Regulatory Agreement between the State and a CHDO, a CHDO cannot be removed as a project owner, developer, or sponsor without prior State approval. In addition, any such substitution could only be made with another State-certified CHDO.

<u>Important Note:</u> This manual is intended to assist our contractors. However, if any part of this document is in conflict with the fully executed Standard Agreement, the State HOME Regulations or the Federal HOME Regulations, those documents shall prevail.
